

I.R.I.S.® CRISALIS® v2014!

(Customizable Resource Information Software And Land Informatics System™)

Like the caterpillar that turns into a butterfly, CRISALIS® will transform your crawling, clunky information system into a beautiful thing that flies! The CRISALIS® software provides you with an **All-In-One Natural Resource Information System**. It ties together: office PC's and handheld computers; 100+ Natural Resources-related software programs (including 55+ **FREE** software programs); access to 10,000+ **FREE** imagery/mapping/GIS datasets; and 10,000+ pages of **FREE** technical reference documents. Since 1999, CRISALIS® (previously called the PC/HH Interface) has helped organizations improve Natural Resources Management and Conservation, while also helping them work faster, cheaper, and smarter! CRISALIS® has PC and HandHeld computer sides with the following features and benefits:

They can be run stand-alone or together on proven, low-cost PC's and handhelds!

They can be expanded by adding software that you are currently using into their menus!

They were designed by a National Award-Winning natural resources software developer!

They provide a solid foundation, framework, and glue for your resource information system!

They are built using modules that can be purchased/implemented all at once or one at a time!

They enable you to tap into our 35+ years of Natural Resources Information Systems expertise!

They are used by Foresters, Land Managers, Resource Managers, Sawmills, Surveyors, and more!

They have a similar structure and menus that are easy to use, intuitive, and minimize training times!

They will help you work better and faster by providing a well-organized, well-developed info system!

They enable you and your people to focus on your jobs while we take care of your information system!

They provide **FREE** Imagery, Mapping/GIS, Surveying, Natural Resource, Forestry, & Forest Prod apps!

They will save you 100's of hours looking for free software/data on the web (and getting viruses instead)!

They will help you safely experiment with software settings using "one keypress" backup and restore!

They will help manage (download, upload, backup, restore, cleanup, etc) your apps and databases!

They provide utilities that help you/us test, diagnose, maintain, and fix your PC's and handhelds!

They have proven ease-of-use and reliability that will help you work faster, cheaper, smarter!

They can save you \$100,000's by replacing for-fee software/data with **FREE** software/data!

The **FREE** software/data is 100% legal and U.S. Government-approved (but hard to find)!

They will save 15 years and millions building your own information system from scratch!

See Next Page For More Time, Money, and Headache-Saving Benefits!

PC CRISALIS® is so useful and cost-effective that nearly all of our clients have purchased a copy (and come back for more) since 1999! In addition to the features and benefits listed on page 1, some more ways that **PC CRISALIS®** will help you work effectively and efficiently include:

- It ties together 100+ Imagery, Mapping, Surveying, Natural Resource, Forestry, & Forest Products software apps!
- It comes with 55+ **FREE** Natural Resources-related software programs with an estimated value of \$25,000!
- It can help you find/use/manage 10,000+ **FREE** imagery/GIS datasets that could easily cost you over \$25,000!
- It provides 10,000+ pages of **FREE** natural resources technical materials with the latest information in your field!
- It helps you logically organize your imagery, mapping, and GIS datasets using the FlexAll™ database design!
- It provides the same intuitive, easy-to-use Application Mgm't Menus for ALL 100+ supported software apps!
- Its App Mgm't Menus help you find, run, check, clean, upload, download, backup, restore, etc... all 100+ apps!
- It enables you to "Plug and Play" most software apps (plug the flash drive into a licensed PC and start playing)!
- It provides an app that converts 23 types of units (area, length, volume, speed, etc) into English and Metric!
- It helps you easily upload, download, transfer, back up, restore, refresh, etc...your handhelds' software/data!
- It enables your staff to enter, verify, cleanup, and print handhelds' data on PC and Network Printers!
- It enables your staff to use PC's to perform complex searches, summaries, and analysis of handheld datafiles!
- It saves you the cost of developing expensive PC-side apps or custom software to analyze handheld datafiles!
- It provides routines that stress-test, diagnose, and suggest fixes for PC/handheld communications problems!
- **It immediately** saves you \$3000.00 by eliminating a \$2500.00 backup handheld and \$500 handheld printer!
- It runs on Windows desktop, laptop, and tablet PC's, as well as local/network drives and printers!

HANDHELD (HH) CRISALIS® is one of the reasons that our handhelds have 99.99% reliability (that's 9999 work days out of 10000) and clients have repeatedly said that our handhelds make them twice as productive! In addition to the features/benefits listed on page 1, some more ways that **HANDHELD CRISALIS®** will help you work effectively and efficiently include:

- It provides a rugged Simple Organizer™ with Time Log, Calculator, Note Pad, To-Do List, Field Notes, Etc!
- It ties together 25 Imagery, Mapping, Surveying, Natural Resource, Forestry, Forest Product apps on handhelds!
- It provides the same intuitive, easy-to-use Application Management Menus for ALL 25 software apps!
- It increases the useful lifetimes, speed, and reliability of your handhelds (as well as tasks you can use them for)!
- It reduces handheld problems, wasted trips to the field, expensive downtime, and waiting for costly tech support!
- It configures handhelds so they all run the same - reducing confusion, uncertainty, training, and support!
- It enables you to use 20 types of devices on ONE handheld (including printers, bar code scanners, external drives, GPS units, modems, meters, scaling sticks, serial-to-usb and parallel converters, surveying total stations, etc)!
- It enables you to buy all those cool handheld accessories that you wanted (and we can now sell for a lot less)!
- It helps you put-off buying expensive new handhelds, new software, new procedures, and new training!
- It provides routines for configuring, stress-testing, & maintaining handheld screens, keyboards, ports, drives, etc!
- It helps prevent drive corruption, fixes drive errors, and increases handheld reliability and speed!
- It removes "memory effect" on batteries, increases battery charge and life, and decreases battery problems/costs!
- It works-around the Itronix/Husky date bug and fixes the MP2500/FS3 lockup problems!
- It runs on Itronix/Husky FS/GS, FS2, MP2500, FS3, and FEX21-DOS handhelds; Juniper Allegro-CX's; and Trimble Recons, Nomads, Junos, and Rangers!
