

## SAVE BIG BUCKS WITH OUR HANDHELD RECONDITIONING PAKS!

Why buy new handhelds, when you can have “like new” handhelds for about 1/3rd the cost? With proper care and maintenance, your handhelds can continue to serve your organization for many years. We can make your handhelds run like new and double their useful lifetime using our **highly-acclaimed, proven 300+ step** repair/restore package. When compared to buying new, this package:

- Eliminates retraining for new hardware, software, procedures!
- Helps you get the most out of your current investment!
- Enables you to use the same familiar software!
- Can restore many non-working handhelds!
- Eliminates need to buy new peripherals!
- Eliminates need to buy new handhelds!
- Eliminates need to upgrade software!
- Eliminates sales tax on new units!
- Eliminates @\$\* dead batteries!
- Eliminates costly breakdowns!
- Eliminates nagging problems!
- Helps keep you competitive!
- Improves your bottom line!
- Improves your productivity!
- Reduces your overhead costs!
- Costs a fraction of “buying new”!
- Extends the life of your handhelds!
- Improves reliability and confidence!
- Enables you to stay focused on your job!
- Reduces your impact on the environment!
- Enables you to use same familiar reports!
- Restores the speed of your handhelds!
- Minimizes changes and disruptions!
- Conserves precious capital!
